

“If you are looking to control what your students are seeing and working with, ClassPolicy is the best thing to use.”

-Teacher, James Madison Middle School, LAUSD

# Use smart devices in the smartest way.

Seamlessly integrate technology into your lesson plan with ClassPolicy, a next-generation K-12 classroom management solution for Windows 8 devices.

#### **Gauge understanding**

by polling students throughout the lesson.

#### **Orchestrate your class**

by automating the sequence of your lesson plan.

#### **Promote sharing of student work**

by using Office 365 products.

#### **Simplify everyday tasks**

like disseminating files to your students.

#### **Eliminate distractions**

by restricting web and application access.

#### **Administer tests**

compliant with a variety of standardized testing requirements including Common Core State Standards.

#### **Provide targeted instruction**

to different groups of students based on their needs.

With technology moving at breakneck speed, the gap widens between schools that harness the newest technology in class and those that don't. Why not take advantage of the rise in 1:1 device implementation in schools and use these tools to enhance your curriculum?

ClassPolicy is the only software solution on the market that effectively manages both modern and desktop interfaces in Windows 8. It also leverages the familiar and comprehensive functionality of Microsoft Office 365.

ClassPolicy empowers you to lead, direct, and launch apps, documents, and websites on your students' Windows 8 devices—and block those that may distract.

## **ClassPolicy**

Empower teachers, Engage students

Toll-free: 1-800-868-9310

14205 SE 36th St Suite 100, Bellevue WA 98006

“ClassPolicy is a beautifully designed Windows 8 app for education that provides a wide range of options for content delivery and access restrictions and is a flexible tool for technology integration in education.”

-Education Technology Director, Forest Ridge School

#### With ClassPolicy, teachers can:

- Restrict use of apps and websites
- Lock student screens
- Launch apps, documents, and websites directly onto students' screens
- “Stick pick” students for tasks
- Use “Simulation mode” to run through lessons offline
- Create shortcuts for frequently used functions
- Sequence actions and shortcuts to design lessons
- Manage students with Attending or Absent status
- Poll students
- Group students
- Monitor student screens in a bandwidth-friendly manner
- Easily comply with Common Core testing requirements

## Take control of the technology use in your class simply and powerfully with ClassPolicy.

Because ClassPolicy is delivered as a cloud service, it offers unsurpassed mobility, allowing you to plan and simulate lessons from anywhere with a Wi-Fi connection. Our cloud-based design guarantees simple deployment and minimal impact on your network load.

ClassPolicy was developed in conjunction with teachers in a K-12 environment to ensure that it supports the needs of educators like you.

Winner of the Microsoft 2013 U.S. Education Rising Star Award, ClassPolicy is a product of AssistX Education, LLC.
